RE: FRP Discontinuation
DATE: March 16, 2018

Dear Distribution Partner,

Effective immediately, we decided to discontinue our line of Fiberglass Reinforced Polyester (FRP) doors and frames to focus on our core hollow metal business. We are committed to supporting you during this discontinuation. If you have awarded projects with FRP products please contact your ASSA ABLOY Door Security Solutions Representative to plan a fulfillment solution before March 30th 2018 or contact your CURRIES Customer Service professional for any warranty issues.

We appreciate and value our partnership and regret any inconvenience this announcement may cause you and your customers.

If you have any questions, please contact your CURRIES Customer Service Professional or your local ASSA ABLOY Door Security Solutions Representative.

We appreciate your business.

Sincerely,

Trent Turner
Director, Hollow Metal Marketing
